Subject: CCR Alternative Closure Demonstration

Good Afternoon,

EPA has received the revised demonstrations submitted pursuant to the alternative closure provision § 257.103(f)(1) for Kyger Creek Power Station and Clifty Creek Power Station. We will begin our completeness review of the demonstrations as quickly as possible. EPA is maintaining a table of all submitted demonstrations and their review status on our website, <https://www.epa.gov/coalash/ccr-part-implementation>. When EPA concludes the completeness review, we will notify you.

Thank you for your patience.

If you have any questions, please contact myself, Frank Behan, and Richard Huggins.
